

## Scalable Performance Signalling and Congestion Avoidance

Filesize: 1.52 MB

### ***Reviews***

*This pdf might be well worth a study, and a lot better than other. It really is simplistic but excitement inside the fifty percent in the book. Its been printed in an exceedingly straightforward way which is just after i finished reading this ebook through which really modified me, modify the way i believe.

## SCALABLE PERFORMANCE SIGNALLING AND CONGESTION AVOIDANCE

DOWNLOAD

Book Condition: New. Publisher/Verlag: Springer, Berlin | This book answers a question which came about while the author was working on his diploma thesis [1]: would it be better to ask for the available bandwidth instead of probing the network (like TCP does)? The diploma thesis was concerned with long-distance musical interaction ("NetMusic"). This is a very peculiar application: only a small amount of bandwidth may be necessary, but timely delivery and reduced loss are very important. Back then, these requirements led to a thorough investigation of existing telecommunication network mechanisms, but a satisfactory answer to the question could not be found. Simply put, the answer is "yes" - this work describes a mechanism which indeed enables an application to "ask for the available bandwidth". This obviously does not only concern online musical collaboration any longer. Among others, the mechanism yields the following advantages over existing alternatives: - good throughput while maintaining close to zero loss and a small bottleneck queue length - usefulness for streaming media applications due to a very smooth rate - feasibility for satellite and wireless links - high scalability Additionally, a reusable framework for future applications that need to "ask the network" for certain performance data was developed. | Foreword by Jon Crowcroft. Foreword by Max Mühlhäuser. Acknowledgments. 1: Introduction. 1.1. Reader's Guide. 1.2. Work done. 2: Related Work. 2.1. Congestion Control in Packet Networks. 2.2. Problems and Issues. 2.3. A Trend towards Explicit Signalling. 2.4. Congestion Control in ATM: ABR. 2.5. Quality of Service. 2.6. QoS and Congestion Control. 2.7. TCP-friendly QoS: A Comparative Evaluation. 2.8. Explicit Traffic Signalling in Packet Networks. 3: PTP: A Framework For Explicit Performance Signalling. 3.1. End-to-end Arguments revisited. 3.2. Architecture. 3.3. Performance Parameters. 3.4. Policy Considerations. 3.5. The Performance Transparency Protocol. 3.6. Content...
