It will be seen that wheat forms the greatest percentage of the total tillage in Australasia as a whole, and in New South Wales, Victoria, and South Australia. Maize and sugar-cane are the principal crops in Queensland; hay crops, in Western Australia; and oats, in New Zealand. In Tasmania only 32- per cent, of the cultivated area is under wheat, which, however, is still the principal crop of the colony: --The position in which each of the principal agricultural products stood in relation to the total area under crop in Australasia, at various periods since the year 1861, may be ascertained from the following table. The figures should, however, be taken in conjunction with those to be found in the table on page 253, giving the actual areas cultivated, for a decline in the proportion of land under any particular...
