## PHYSICAL EDUCATION SOCIAL ATTITUDES AND LEADERSHIP QUALITIES

Discovery. Hardbound. Book Condition: New. Contents: Preface. 1. Introduction. 2. Methodology. 3. Results and discussions. 4. Summary, conclusions and suggestions. Bibliography. Executive summary. Index. "Physical education contributes much in the maintenance of good health and development of desirable social attitudes and leadership qualities. Considering this, a study was taken up to study the impact of physical education on the development of social attitudes and leadership qualities. Tools to measure, taking into consideration the objectives and hypotheses, the intensity of participation in physical education, social attitudes and leadership qualities were administered to a sample of 690 students studying in secondary schools, junior colleges and degree colleges. "The sample students felt that the participation in games & sports generally helps in the formation of right social attitudes and appropriate leadership qualities. Irrespective of the levels of education, the students develop in them the leadership qualities positively in relation to social attitudes formation. It is necessary to conduct a thorough probe which would highlight the sluggish growth of leadership qualities among sports personalities at the highest levels of their participation. "This book will be very much useful to physical education institutions, physical directors and physical education students along with educational administrators." (jacket)No. 24714 287 pp.
