

Clouds, Rain, Clouds Again NSTA Kids I Wonder Why Series - PB330X7

By Lawrence F. Lowery

National Science Teachers Association - NSTA Press. Paperback. Book Condition: New. Paperback. 36 pages. Dimensions: 9.7in. x 9.2in. x 0.2in. This soothing book is the perfect invitation to a relaxed afternoon of cloud gazing. It starts by encouraging young readers to observe what clouds look like, from thin wisps to puffy air castles to giant faces. Then the story raises natural questions: Where do clouds get water? Why does it rain? When rain makes puddles and puddles dry up, what happens to the water? The answers give children an easy-to-grasp picture of the water cycle while instilling the kind of curiosity that can lead to a lifetime of experiencing the world from a scientific perspective. *Clouds, Rain, Clouds Again* is part of the *I Wonder Why* book series, written to ignite the curiosity of children in grades K-6 while encouraging them to become avid readers. These books explore the marvels of geology, land forms, weather, environments, and other phenomena related to science and nature. Included in each volume is a Parent/Teacher Handbook with coordinating activities. The *I Wonder Why* series is written by an award-winning science educator and published by NSTA Kids, a division of NSTA Press. This item ships...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You won't feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
