Not illustrated. 1913 Excerpt: .started operations in 1905, this slide again became active and, as the Cut deepened at this point, it continued to develop. Gold Hill presents a solid rock face 482 feet above the Canal bottom between Cucaracha slide and a slide immediately north. These two slides have broken so far back that the slope on their outer edges is away from the Canal. This has led to the introduction of hydraulic monitors which are engaged in sluicing the material from the top of the slides into the valley in the rear of Gold Hill, in order to reduce the pressure from above. Another serious slide occurred on the west bank of the Canal at Culebra covering an area of 75 acres, and necessitating the removal of about 10,000,000 cubic yards of material. This slide made necessary the removal of many buildings of the village of Culebra...
